# MYKIT™ RECYCLE

Introducing a greener dimension to MyKit™ – your trusted companion for a sustainable future. We are proud to announce that all our kits are now crafted using Recycl-IN rPP2028, a cutting-edge natural-colored polypropylene copolymer that's setting new standards in eco-consciousness. What sets Recycl-IN rPP2028 apart is its remarkable composition, featuring an impressive 70% Post-Consumer Recyclate (PCR). This means that with every MyKit™ product you choose, you're not just making a smart choice for yourself but also contributing to a more sustainable planet. Here's why you'll love our MyKit™ range with Recycl-IN rPP2028:

 **Reduced Carbon Footprint:** With 70% PCR content, MyKit™ kits help reduce carbon emissions and promote a healthier environment.

 **Homogeneous Perfection:** Our kits feature fully homogeneous pellets, ensuring consistent quality without the risk of segregation.

 **Virgin-Like Clarity:** Expect the same clarity and colorability as virgin resins, so your products remain visually appealing.

At MyKit™, we believe in not just meeting but exceeding environmental expectations. With our Recycl-IN rPP2028-based kits, you're making a choice that's kinder to the planet without compromising on quality or performance. Elevate your brand's commitment to sustainability with MyKit™ – where ecoconsciousness meets excellence.

# NEW POUCHES

Embrace sustainability and elevate your brand with our eco-friendly packaging solutions! At MyKit™, we understand the importance of reducing environmental impact while delivering top-notch quality. That's why we're thrilled to introduce two exceptional packaging options that perfectly complement your MyKit™ products: Kraft Paper with LDPE Our Kraft Paper with LDPE pouches offer a smart, sustainable, and versatile packaging solution. Crafted from a blend of materials, these pouches provide superior protection against moisture, air, and light. The grip closure is not only convenient but also eco-friendly, as it can be opened and closed countless times. With a self-supporting round bottom gusset, these pouches proudly stand on retail shelving, making them ideal for pharmaceutical products and medical devices. Plus, they're a fantastic eco-conscious alternative to hard plastic packaging.

Compostable Pouches - Plastic Free For the ultimate in sustainability, our Compostable Pouches are a game-changer. Constructed entirely from FSC-sourced kraft paper and PLA, a compostable monomer derived from non-GMO corn starch, these pouches are a planet-friendly choice. PLA naturally biodegrades under industrial composting conditions, leaving behind no harmful residues. They're not suitable for liquids but excel in dry product packaging. With their stand-up functionality and options for half or full-color printing, these pouches are a vivid representation of your commitment to a greener future. By integrating our Kraft Paper with LDPE or Compostable Pouches into your MyKit™ offerings, you're not just delivering exceptional products, but you're also sending a powerful message about sustainability. Your customers will appreciate your dedication to the environment, and your brand will shine as a steward of ecoconsciousness.

## TEST & REGISTRATIONS

To sustain the highest level of quality management and legal compliance, it demands a strict self-monitoring delivery security system. Therefore, by nature, we are obliged to stay alert to any changes in all required legislations worldwide and keep all our ISO and EC certifications, as well as product registrations, updated.

In order to comply with the CE regulations for marking and instructions on products placed in the market, it is necessary to have all legal text in place. Our legal text database contains all relevant legal text for all our products in 25 languages.

**REACH:** We are testing our materials in accordance with the European Chemicals Agency according to directive EC/1907/2006. **Registrations/Certifications:** Our Medical products are CE certified by TUV SUD and can be freely distributed and sold in the below-mentioned markets.

**EUROPE:** ISO13485:2016 Quality Management System, Cert. no. Q5 067759 0027 EC certificate Class IIa, IIb, or III MDD, Annex II excluding (4), Cert. no. G1 067759 0028 EC certificate Class IIa, IIb, or III MDD, Annex V, Cert. no. G2 067759 0023 EC certificate Class Is Sterile Devices MDD, Annex V, Cert. no. G2S 067759 0029USA

**USA:** FDA Registration No. 10027255

**AUSTRALIA:** TGA Registration No. DV-2013-MC-02343-1

**CHINA:** FDA, Zhejiang, China Registration No. 20130054

**Our cosmetics products are produced both in Europe and China.**

They all comply with REGULATION (EC) No 1223/2009 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 30 November 2009 on cosmetic products.

**We comply with Environmental/Quality control certifications:**

ISO14001:2004 Cert. no. 12 104 36534 TMS

ISO 9001:2015 Cert. no. is QS5 17 10 67759 019

**We comply with social compliance programs:**

Audited/approved by BSCI, SEDEX, and BRC
